About us >>

LET'S MAKE ART is an independent arts organisation run by artists and educators Alice Hendy and Karen Davies. They are artists in residence at the Arnolfini, Bristol's International Centre for Contemporary Arts. Their fun and inventive style has led them to work with many like minded organisations and artists, delivering accomplished projects for diverse audiences.

They are passionate about the importance of creative subjects in schools and truly believe that studying and participating in art supports learning in other subjects. Art For Schools started in 2015 to provide multimedia arts programmes for KS1 and 2 pupils. They explore all aspects of making and experiment with diverse materials and techniques, valuing young people as natural artists who have a freedom of expression. Every year they enter children's artwork created at Art Club into the Young Artists Show at The Royal Academy in London and have had four successful candidates.
