Acceptable Use Policy

Dear Parent / Carer

At St Peter's we want to ensure that learners have access to the best possible resources for learning and many of these are now available through using the internet. As you are probably aware children's use of the internet and risks to their safety through this have featured in the media. At our school we take this issue very seriously and want to do everything we can to help young people develop the skills to keep themselves safe online as well as in the real world.

As part of our strategy to achieve this we take every step to ensure that while children's experiences online are safe, educational and rewarding. We also seek to educate our pupils about how to use the digital media safely. To ensure this we believe that responsibility not only lies upon school but also parents and the children themselves to remain safe. As a result we have developed a policy for the acceptable use of ICT. You are encouraged to share this with your child and then sign and return the policy to the school office.

A use of digital images form has also been attached with this letter. Can you please return this to the school office.

Thank you for your support and cooperation with this matter.

Yours Sincerely

Paul Truan
ICT Coordinator
