

Maths:

- Multiplication and division
- Area and perimeter

Art/D&T:

We will study the work of great artist, architects and designers. Then research, design, create and evaluate our own invention.

Jigsaw:

Celebrating Difference

English:

Our quality focus text will Pig Heart Boy by Malorie Blackman.

We will use this to produce our own narrative and discussion text.

RE:

Incarnation

Children will be able to show how Christians put their beliefs about Jesus' incarnation into practice in different ways of celebrating Christmas. We will achieve this by explaining connections between biblical texts such as Incarnation and Messiah.

Computing:

Online Safety

PE:

- Real PE: Unit 1
- Dance

Class: 5 Term: 2

Does science and invention make our world a better place?

Music:

Listen to, compose and perform music in ensemble.

French:

On the move

Children will develop their conversational skills via transport, direction and movement. Children will learn how to respond to simple instructions for direction and movement and find places on a map.

Enquiry:

- The children will study famous inventors and scientists and the developments they have contributed towards in our modern world
- We will look at the developments in medicine and how they have changed over time
- We will analyse the developments in the range of maps available to geographers by using a range of maps, atlases and digital maps to locate scientists and inventors around the world.
- Children will also consider the moral stance of some inventions under the consideration of British Values.
