

ENGLISH

- Do you have access to NETFLIX at home? If so, watch an episode of 'A Series of Unfortunate Events' and compare it to the book we are reading in school.
- What is your favourite book? Create a persuasive poster for our book area to encourage other children in the class to read it.

SCIENCE AND IT

- Research a scientist or inventor that you are interested in. What inspired them? How did they reach their goal. Write a report on them.
- Look at the timescale of computing. From the first computer to home computers to tablets. What have you learnt? What was the first mobile phones like? Why has technology moved on so much?

HUMANITIES

- Talk to one member of your family about their life journey. What are the important milestones, what do they still want to achieve? How could you present this and feedback to the class?

CREATIVE DEVELOPMENT

- Create your own Ancient Egyptian artefact using any materials you like. Decide what it is used for and as a class we will ask you questions to try and guess what it is!

PSHE/ COLLECTIVE WORSHIP

- Think about special journey's your family have been on together. What has made them special and worthwhile?
- In what way are your parents/carers good guardians? Can explain the things they do that keep you safe and cherished?

MATHEMATICS

- Mrs Cannock wants to buy dog biscuits for Lemmy. A large bag has enough for 200 meals. A medium bag has $\frac{3}{5}$ of a large bag. 'I only need enough for 150 meals so I will get a medium bag' thinks Mrs Cannock. Is she right?
